Dear friends, dear readers,

The Children's Fund of the Slovak Republic is particularly known thanks to its year-long work with the population groups at risk, children and young people, whose values are oppressed and unfulfilled. We know how important human dignity is, and how much it might be oppressed by different barriers.

It may appear that people can be helped indefinitely, but it is important which form of aid we choose, and how we allow people themselves to participate. In the Children's Fund, we help in a reasonable and supporting manner, we pay attention to people's needs and amazing inner resources that each and every one of us have inside of them. We believe that with this approach, every change has the chance to become a permanent one. Come and meet our activities that we have been carrying out for a long period of time to help children and youth, and which we will carry on, regardless of the labels, stereotypes, and barriers in the society as in ourselves. Come and discover the work of the amazing people that I have the honour to lead as the director of the association.

Be a part of reasonable changes and support our activities with your interest or in any other way.

We are able to continue with our work thanks to your contribution as well. Thank you all for not being indifferent.

Yours faithfully,

Ing. Svetlana Poláková, MBA
Director of the organisation

Charter of the Children's Fund of the Slovak Republic

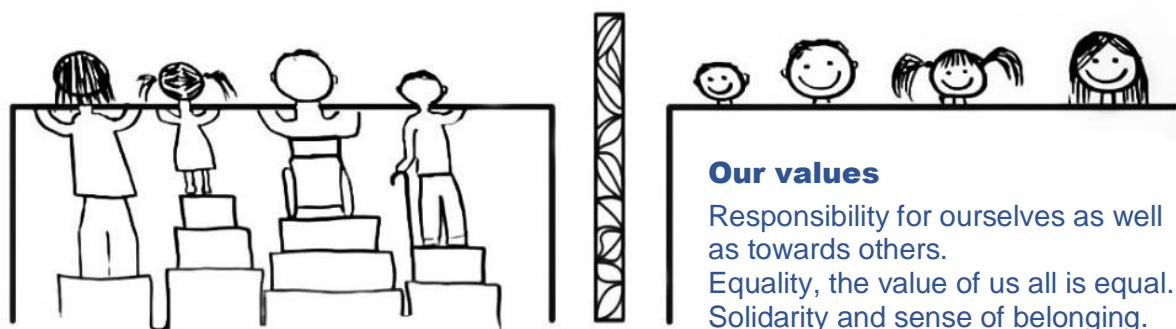

"We believe that the world is a better and more beautiful place, because we are also its part."

Who are we?

We are the Children's Fund of the Slovak Republic and we have been active since 1990 as a non-governmental organisation aiming at the protection of child's rights. We focus on searching for what brings people together, and not the things which put them apart. We seek for, define, and approach individuals and groups at risk and people who face exclusion. We support and help individuals and groups in their inclusion, integration and overcoming of barriers. We cooperate with expert public. We inform, engage, and create a space for the people who want to decrease the existence of barriers in our society.

Why are we here?

We are here because there are barriers and differences in the society.
There are people who have to rely on help from others.
There are people who want to help and support others.

Our values

Responsibility for ourselves as well as towards others.
Equality, the value of us all is equal.
Solidarity and sense of belonging.

Our goals

- To help the groups at risk.
- To cooperate with the expert public, contribute to the improvement of the quality of its work with children.
- To help legal and natural entities when they seek for a way to the moral credit of a "good citizen". To be based on the positive characteristics of the society (we want to, not that we have to).
- To advance the equality of everybody's rights regardless of the age, gender, physical and mental state, based on the Declaration of the Rights of the Child.
- To present CF SR as a strong, transparent, and trustworthy organisation.

Membership in other organisations

SLOVAK HUMANITARIAN COUNCIL (SHC) – CF SR is a member organisation of SHC which operates as a national volunteer centre of humanitarian and charitable organisations.

Association of low-threshold services for children and youth in SR – CF SR belongs among its founding members.

Nadácia SOCIA – CF SR is a member of the foundation for the support of social changes. Once a year we discuss the current situation of the disadvantaged people in Slovakia.

Városiová Natália (to 30/06/2018)
Severíniová Paulína (to 30/06/2018)
Šuhajdová Barbora (from 01/10/2018 to 30/11/2018)
Janoško Pavol (since 01/09/2018)

Introducing the CF SR Team

PhDr. Nadežda Feketeová has been actively participating in CF SR activities since its establishment, in the CF SR Council, and she was its vice-chair until June 2016. Following the council, she became the chair of the CF SR Board. She is a professional psychologist and psychotherapist focused on work with families. She is a tutor and member of the Virginia Satir Institute in SR. She participates in several projects of the CF SR as the academic supervisor.

Ing. Svetlana Poláková MBA is a year-long member of the CF SR. She has been the director of the CF SR since February 2017. Prior to entering this function, she acted as a top manager in the dynamic environment of international companies where she acquired extensive experience upon directing companies in different areas. She has been dedicated to Victoria Satir's teaching for 20 years, which she applies in her practice of the professional couch and consultant.

Mgr. Mgr. Barbora Brichtová has worked in the CF SR since December 2007 as a social projects senior coordinator. She studies social work at Constantine the Philosopher University in Nitra. She was involved in direct work with children, youth, and families in Mixklub. She graduated from the two-year training as per the Model of Satir. She terminated her activities in the CF SR at the end of 2018.

Mgr. Denisa Valachovičová has worked in the CF SR since December 2014. She has been the academic supervisor for social projects since December 2018. She studied social work at the Faculty of Education at the Comenius University in Bratislava. She attended the four-year psychotherapeutic training in accordance with the the Model of Satir. She works in the direct work with children, youth, and families in Mixklub project, and besides this direct work she coordinates project Healthy relationships.

Mgr. Mgr. Simona Pretzová has worked in the CF SR since 2013, being an internal employee since April 2017. She is a graduate of curative education and social work at the Faculty of Education at the Comenius University in Bratislava. Besides the administration tasks in the CF SR, she is currently in the direct work with children, youth, and families in Project Mixklub, and she coordinates individual counselling.

Bc. Klaudia Kjurčijská has worked as an internal contact employee in the CF SR since 2017. She graduated from the undergraduate studies of social work at the Comenius University in Bratislava. She is in charge of the administration tasks for the Barrier Account in the CF SR, and she works in the direct work with children youth, and families in project Mixklub.

Mgr. Beáta Piliarová worked as an internal employee in the CF SR from September 2017 to August 2018. She is a graduate of psychology at the Faculty of Arts at the

Comenius University in Bratislava, and she attended the training called “A psychologist in health care”. She terminated her activities in the CF SR at the end of summer 2018.

Mgr. Lukáš Štellár has worked in the CF SR since November 2017. He is a graduate of social services and counselling at the Faculty of Social Sciences at the University of Ss. Cyril and Methodius in Trnava. Besides the administration tasks related to the project itself in Mixklub and direct works, he is also involved in prevention coordination, at the same time he works in individual counselling to adults and relatives of the children from the community in Pentagon.

Mgr. Jana Jenesová has worked in the CF SR since September 2018. She studied psychology in Trnava. She works in project Mixklub in the CF SR, where she is in charge of individual tutoring and pre-school preparation for small children. Besides direct work, she also takes care of the administration in the organisation, and since 2016 she has acted as an individual counsellor in the online counselling service – IPčko.sk

Mgr. Diana Tašková has worked in the CF SR in project Mixklub since December 2018. She is a graduate of psychology at the Comenius University in Bratislava. She is involved in direct work with children, youth, and adults. She is in charge of the Preschool and learns a lot.

Mgr. Michal Hacaj worked in the CF SR in project Healthy relationships from 2011 to 2018. He studied psychology at the Comenius University in Bratislava. He was in charge of activities coordination and direct work within the project.

Mgr. Samuel Lamačka has worked in the CF SR since 2005. He graduated from social work at the Comenius University in Bratislava. He worked in project Mixklub for a very long time, where besides coordination and administration tasks he was also involved in direct work and individual counselling. In 2018 he began to work on project Healthy Relationships and he is involved in direct work with children and families by means of counselling and assistance. He is an active member of the Virginia Satir Institute in SR.

Mgr. Radoslav Blaho has worked in the CF SR since 2005. He graduated from social work at the Comenius University in Bratislava. For long time he worked on project Mixklub and in 2016 he transferred to project Healthy Relationships, where he intensively and directly works with children and families by means of counselling and assistance. He is an assistant at the Virginia Satir Institute in SR.

Natália Városiová, Radoslav Blaho, Paulína Severíniová, Petra Hubinská work/worked as external workers within **project Healthy Relationships**.

René Skácal, Ivana Cienka, Zuzana Kršáková, Lucia Kontšeková work/worked as external workers within **project Mixklub – low-threshold centre for children, young people and families.**

Projects of the CF SR

Helping children with disabilities

BARRIER ACCOUNT

“Movement is a natural desire of every one of us”

The Barrier Account (Slovak: *Konto bariéry*) is an extraordinary project of the Children's fund, it has steadily existed for more than 25 years, and it fulfils the needs of families and individuals with disabilities. Thanks to financial help for a compensatory aid from the Barrier Account, young families or young persons can many times make their different task of overcoming different barriers in life as well as in the society easier. In the Barrier Account, we believe that even small acts can change lives for better, and with help of people from outside, donors or sponsoring companies we direct all the financial contributions to those whose need them the most, families themselves, particular children. In the course of its existence, the Barrier Account has helped more than 1,000 applicant by distributing more than € 700,000 for purchase of different aids, such as electric wheelchairs, accessories to facilitate the life of people with sensory disabilities, etc. .

The criteria for receiving a contribution, as well as the overview of the contributions from the Barrier Account, are published on www.dfsr.sk.

- The **Barrier Account** has helped hundreds of families from whole Slovakia during more than 25 years.
- The **Barrier Account** has so far redistributed more than 700 thousand EUR
- The **Barrier Account** is a public collection permitted by the Ministry of Interior SR
- The **Barrier Account** has specific rules for the attribution of the contributions
- The **Barrier Account** has a Governing Board which organises regular meetings and decides on each request for a contribution for compensatory equipment.

Thanks to the Barrier Account, we helped 40 medically disabled children in 2018. We contributed to different medical compensatory equipment in the amount of 27,306.84 EUR (the contribution list is published on www.dfsr.sk).

PUBLIC FUND-RAISING

The Barrier Account project accepts financial contribution thanks to the permit of the Ministry of Interior, by means of public fund-raising. The current information regarding the declared public fund-raising is stated below:

Public fund-raising called KONTO BAIRÉRY 2017 (BARRIER ACCOUNT 2017) permitted by the Ministry of Interior SR, registered under No. SVS-OVS2-2016/032726 from 01/11/2016 to 31/08/2018.

Public fund-raising called KONTO BAIRÉRY 2018 (BARRIER ACCOUNT 2017) permitted by the Ministry of Interior SR, registered under No. SVS-OVS2-2018/027672 from 01/10/2018 to 30/09/2019.

Assistance in the excluded community “Pentagon”

CF SR has executed project in the city ghetto, so called Pentagon, focused on prevention and counselling for disadvantaged groups since 1992. Mixklub has been a project of the CF SR since 2004, and since 2008 it has been accredited by the Ministry of Labour, Social Affairs and Family of the Slovak Republic in line with the Act No. 305/2005 Coll. for Execution of Social and Legal Children Protection Measures and Social Guardianship.

MIXKLUB

Low-threshold centre for children and youth

“With acceptance and support we create a safe space for growth.”

Low-threshold means enabling the maximum accessibility of services – without registration and fees. In practice, this means that a child can come directly from the street and spend their free time in the low-threshold centre with their acquaintances or relatives. They can choose from the proposed activities and they can propose activities as well. They can also ask for an advice and help with solving their problems.

One of the three main projects of the Children's Fund of the Slovak Republic is project Mixklub. Within this project, we organise low-threshold services since 2012 in its own premises directly in so called “Pentagon”, at Stavbárska 38, in Vrakuňa (urban part of Bratislava). As the priority, we focus on work with children, youth and adults, which found themselves in this complicated life situation, excluded to the border of the society. This means particularly the financial difficulties, problems in bring up, complicated issue of housing, and overall the environment where people live, which has little stimulus. Direct work is based on three main pillars: prevention, counselling, and assistance.

SERVICES IN MIXKLUB

Open club

Thanks to acceptance and support, we were able to create a safe space for growing up during regular office hours of Mixklub. Within its scope we provided counselling, prevention, discussions and free-time activities focused on sport, creativity and fun. We provided these activities on a regular basis in afternoon hours every Tuesday, Wednesday and Thursday. In 2018 we worked with 239 individuals and 30 individuals in average visited the low-threshold facility during its opening hours.

Tutoring, preparation to school and pre-school

Every child has the right for education, going to school, and the obligation to study. Similarly to other children, the children who come to our facility from little-stimulating environment desire to learn and have many questions. In the course of 2018 we carried out educational activities outside club's regular opening hours. Children would prepare their homework, write projects or improve writing, reading and counting by training their skills. In 2018 we tutored 15 children in total during 36 hours.

Prior to starting at the elementary school, the child goes to a kindergarten. There are children in "Pentagon", who do not have such a possibility, and they spend their free time on the streets when they learn what they are surrounded by. We have had a Pre-school opened for the smallest children since September 2018. It is a creative space for playing and learning. Children train the basis skills needed to start at school, because this is the first education establishment, which they get to experience in their live.

Individual counselling

We provided individual counselling to the youth and adult relatives of the children from Mixklub all year long. We also started to work with the people who visited the counselling office on the basis of the recommendation through our cooperation with the Central Office of Labour, Social Affairs and Family. In the course of the year, counselling moved to a specialised counselling room. The most frequent topic, which the clients wanted to resolve, were the issues of housing, financial situation and debt relief using a personal bankruptcy, executions, parenting skills, applications at the court regarding care for minor children, search for job and part-time jobs. But topics as domestic violence and placement of children into institutional care also appeared. Besides counselling services we accompanied our clients in different institutions. In the course of the year, we cooperated with the Central Office of Labour, Social Affairs and Family, legal office of CU's law faculty students, but also with a private law firm providing *pro bono* services. In the course of the year we carried out 222 counselling sessions with 138 clients.

Prevention in Mixklub

Prevention days took month every day, and during these days children and young people carried out different prevention activities in stations, which had been specifically created for the selected prevention topic. On the basis of our client's needs, we selected the following prevention topics in 2018: online safety, sexuality, hazard games, love, nature, bullying and violence, sports and free time, body care, cigarettes and smoking. 16 children in average attended prevention days,

The news in prevention in 2018 were the **prevention groups**, which were designated for clients from 11 to 18 years of age. In these groups, young people together with their employees carried out activities and discussed partnerships, relationships, friendship, school attendance part time jobs, and other topics, which they brought to the meetings. We performed 13 prevention groups in 2018.

ACTIVITIES WITHIN THE COMMUNITY

Children's Day

Every year we organise Mixák Children's Day in the premises of Mixklub and the adjacent park at Stavbárska 38. In 2018, together with volunteers and children, we again prepared individual stations where children tested their skills related to sports, games, and creativity. While playing and having fun, children and young people earned Mixklubák currency, which they were able to use to buy sports equipment, cosmetics, refreshments, etc. The cherry on the top of this wonderful day was the amazing cake, which we received from a cooperating hotel. Children and their families, employees, volunteers, as well as the people from the surrounding sat behind the table as one big family and enjoyed the cake and the ambience.

St. Nicolas in Mixklub

The littlest children got the chance to meet St. Nicolas. Children enjoyed their individual moments with him, when they could confess to him what they wished for, and pride themselves of what they accomplished in the previous year. At the end, he gave them a small price and a piece of candy.

Christmas Party

With the arrival of holiday season we organised a party where we all met under the Christmas tree. Together we gave out presents, enjoyed refreshments and enjoyed the pre-Christmas time.

At the end of the party, there was a raffle. The main prizes included a bike, skateboard, and board games.

ACTIVITIES OUTSIDE THE COMMUNITY

Mixák daily camp

On the second week of July 2018 we got to experiences adventures together with children in different places outside their natural habitat. We had a barbecue on the Partizánska lúka meadow, we cooled down at a swimming pool during hot summer days, we discovered natural phenomena in a museum, and we saw rescued animals in the Malkia park. The last, and at the same time the most wanted trip took place in Waterpark Senec.

Every year during our daily camps we travel by train, tram or other forms of transport. These are all experiences when children get to know many new people and by overcoming their fear, they start to believe in themselves and they realise how many things they can accomplish.

Creative activities in Lab.cafe

In the course of the year, children joined us to visit the workshop in Lab.cafe. Here they practised their creativity and skills during preparation of t-shirts and key chains. They also learned and tried out that they could make for example a wallet even from an ordinary milk box.

Weekend cabin

In November the children and us spent a beautiful weekend in the area of Pezinská baba. The topic of the cabin trip was "Heroes in us". This topic also inspired the

activities, which we did there. We prepared a barbecue, overcame ourselves during a hike in cold weather, joined together when searching the treasure, which was ingredients for pizza. In the evening we organised and danced at a disco. We are convinced that each of us found a hero in themselves.

We come together and grow further

With this project we followed up the successful project “We come together and we grow” The aim was to connect and get to know again two communities of children and youth, that seem to be different at the first sight. Young people attending low-threshold centre Kaspian in Petržalka joined Club CPPPaP from Ružinov. As of autumn, children started to get to know and meet each other, while they were playing various games and enjoying refreshment. Kaspian, our friendly low-threshold centre from Petržalka organised an amicable foosball tournament in December. During these activities we taught children to respect and get to know each other and observe fair-play. We were able to organise these activities thanks to the support of Nadácia pre deti Slovenska (Slovak children foundation) from the public fund-raising called Hodina deťom (Hour for children)

Statistics of educational situations, prevention, and counselling at Mixklub during regular opening hours

Educational situations – resolving conflict situations between children, between children and employees, educational situations related to the environment, such as cleaning after oneself, destroying the property and material of the centre as well as the surroundings.

- Educational situations client to client: **878**
- Educational situations client to employee: **313**
- Educational situations client to environment: **826**

Prevention – talks and provision of information on different topics, and prevention activities related to the topic of drug issues, sexuality, health, internet, etc.

- Prevention related to drug issues: **52**
- Prevention related to issues regarding sexuality: **36**
- Prevention related to the health: **110**
- Prevention related to the internet: **29**
- Prevention related to other topics: **57**

Counselling – counselling discussions which mostly concern topics such as school, part-time jobs, social counselling and psychological counselling.

- Career counselling: **65**
- Social counselling: **85**
- Psychological counselling: **41**

Assistance with education in families

HEALTHY RELATIONSHIPS

“Family is a crucial source of support for a child, and this is where positive and effective changes can take place.”

Healthy family relationships is a project which provides support to parents and their children with ADHD, who found themselves in emotional crisis and sought help in bringing up their children. In this project we provide families with comprehensive counselling services. We always perceive the family as a unit, and we regard the problems of a child as an expression of the “functioning” of the whole family. The family with an ADHD and behavioural disorder child usually lives in a huge stress, therefore, it needs support for all the members, however, in particular for the parents. We try to engage the widest circle of the family into our activities, and provide the individual members with general support which will make them stronger. We help them to seek own resources and ways in order to cope with difficult situations. We focus on the growth of self-esteem and self-confidence, support for the change in order to reasonably handle difficult situations, development of social and parenting abilities, understanding the child's needs, support of its healthy mental development, and training on mutual communication.

We work individually or in groups, we focus on the encouragement of relationship and communication in family by means of experiential activities. We assist to schools in integration of diverse children in classes. We also organise weekend stays and experiential workshops for expert and general public. Our activities help to contribute to the improvement of relationships in families.

Our goal set in 2018 was to increase the intensity and quality of provided services. We carried our several important changes in order to meet this goal. For example, we changed the original name of the project “Family with a hyperactive child – Centre for families in crisis” to its current name **HEALTHY RELATIONSHIPS**.

In 2018 we made several changes within the project, and as of September 2018 we expanded the project, in which we provide counselling and assistance activities to families on a daily basis. The work team underwent some changes as well, and we prepared it for gradual expansion of project services.

We rented out new premises from the local municipality authority Nové Mesto at Háľkova ulica 11 in Bratislava, which we reconstructed at our own cost, and prepared for the specific needs of the work with families with a child with behaviour disorders.

Activities provided:

Individual counselling for parents was dedicated particularly to educational issues and searching for possibilities to create a positive ambience in the family, which would support the mental development of a child. As for the individual counselling, we also focused on the better understanding of child's needs, and parent's own needs.

Individual working with children focused on the encouragement of their self-confidence, going through difficult situations in a safe environment. The individual work with children was performed adequately with regard to the age of children (games, art techniques, discussions, etc.). Individual work was employed mainly in case of acute problems of a child, and it led to the stabilisation thereof.

Parents and children groups

Since January 2018 we have carried out two open groups, which were dedicated to the topics of education, training of special parenting skills, parents' personal growth, mutual support and exchange of experiences. The support of children's groups aimed to develop social skills, ability to concentrate on an activity, and to build children's self-esteem. As for the joint activities for parents and children, they participated in the programme which focused on living together and supporting the healthy relationship between the parent and the child.

The **cooperation with schools** focused on supporting expert and pedagogical employees. Since October 2018 we have worked at the elementary school, which had requested from us to support the pupils' integration in a specific class. Several children with behavioural disorders belonged to this class. During our classes, pupils were learning about and adopting new healthier means of stress management, they were making friendly connections and improving their communication. We provided counselling to the teachers in order to obtain new skills when working with a mixed class of children, and this by means of shadowing directly during their lessons as well as by means of individual consultations.

In our direct work with the client we make teams consisting of male and female specialists. We lead our clients to mutual support and respect on the basis of male and female role models.

Supervision and education

Supervision meetings

“Supervision forms an integral part of direct work with the clients of the CF SR”.

In order to develop working skills and self-development, we carried out 12 meetings by a group form of supervision, and 10 meetings by means of an individual form. In 2018 we worked mostly on the following topics: work with client's boundaries, how to work with an aggressive client, team work, reasonable conflicts resolving, we were looking for new solutions to develop the abilities to work in a more systematic way towards the working team as well as towards the client.

The CF SR team participated in **254 hours** of supervision in 2018.

Education within the team

This year we also shared our experience with the future experts working in assisting jobs. We are aware of our responsibility towards students, and thus we regularly welcome them in our “backstage”. We enabled several students from the Comenius University in Bratislava to connect theory with practice. This was by the practice provided, as well as support in research parts of diploma theses, term theses, or trips to see our activities. We shared our experience from working with children and youth with the colleagues from low-threshold centre Fortunáčik and with our neighbours from Civil Association Odysseus. Thanks to the previous cooperation with the Iuventa – Slovak Youth Institute, the employees of the CF SR were able to continue in the training related to the topic of the Radicalization of the youth in 2018

as well. We took part in an intensive one-week education course in a closed group of experts from different countries of the world, and we discussed, exchanged experience from direct work, and sought for new vision how to move forward. 2018 was also the year when we visited a company partner for the first time. We told them about our attitude to children and the youth. We know that these kinds of approach are universal, and we can use them e.g. at work meetings.

In 2018 we provided the employees of the Children's Fund of the Slovak Republic with several opportunities for education and development, and thank to them they were able to perfection their skills.

Education for work with youth radicalisation

We gained new perspective to the democracy and radicalisation at the education training called "Youth work against violent radicalisation /The role of democratic competences". Two employees attended the training in Oslo (Norway), where they learned more about human rights in relation to the client, and in the society itself.

Conference of Czech association street work

This was an international expert conference focused on terrain and low-threshold work, where we discovered new inspirations for the development of terrain service, and engaging children and youth in more active spending of their free time on the street.

PDCS – Crisis intervention – working with stress and trauma

We focused the work with stress and trauma on our work team. We used all this time to improve relationships between ourselves to be able to come together on the basis of what we have in common, and to grow based on how different we are.

Bruises on the soul

The main topic of this education was children's abuse. We learned to be more sensitive to this topic, as well as the skills as how to talk to the child victim.

PDCS – How to write to be read

Creative education of how to make writing interesting and how to communicate with public we believe that this immediately reflected on our Facebook account.

Informing the public about the executed activities

The public has the possibility to find out more about the activities of the CF SR at: www.dfsr.sk, www.facebook.com/dfsр.sk, by means of **press releases** and articles in **Vrakuňské noviny**, and from the **Annual Report on the Activity of the CF SR**.

Volunteering and traineeship in CF SR

VOLUNTARY ACTIVITIES

Our activities were supported by several wonderful people in 2018. We appreciate all the energy and time that they had dedicated to us, because they believe in what we do. **We would like to thank the following people for the indescribable joy of children and youth during the Children's Day at Mixák:**

Dáša Balacenková, Juliána Mikolášková, Štefan Vigo, Mariana Krivánková, Veronika Selepková, Maca Fogdová, Maťo Šútovec, Zuzana Abelovská, Anežka Jeckelová, Daniela Grančáková, Soňa Svoreňová, Simona Ježová, Alžbeta Michalová, Jakub Kratochvíl, CA Prima, Kamil and Kika Vyskočil, Linda Davidovičová, Ivana Kašaiová, Marek Badinský, Jana Vandličková.

We want to thank to the following for sanitized toys in Mixklub and painted offices and porch during the “Our city” event: company volunteers from Slovnaft.

We would like to thank to Peter Polák **for having incarnated our ideas into the specific structure of our website.**

We would like to thank to Lucka Vicenová for guiding us **in our new beginnings of building modern marketing strategies.**

STUDENTS TRAINEESHIPS

Thanks to the cooperation with the Comenius University in Bratislava, the CF SR was able to offer space for traineeship to two students from the department of social work and from the department of medical pedagogy at the Comenius University in Bratislava. They attended several hours of practice in direct work, participated in intervision meetings in the team, as well as several supervision, and this all under expert supervision.

Awards

During its work, the Children's Fund of the Slovak Republic received several awards for pro-social activity in the area of groups of population at risk. As for 2018, we can pride ourselves with the award from the Boards of competition **“SLOVAKIA WITHOUT BARRIERS”**,

where we received the **“CERTIFICATE OF MERIT”** for the Children's Fund of the Slovak Republic in the competition called “Self-Governance and Slovakia without Barriers 2016 – 2018” in the category “Donors, media, and other institutions”.

Our thanks to Mr Milan Galanda (General Secretary of the Union of the Towns and Cities of Slovakia), Mr Miloš Nemeček (Chair of the Boards of account Slovakia without Barriers) and Mr Marek Machata (President of the Association of organisations of disabled people in Slovakia).

Completed projects

Over the course of its history, the CF SR carried out several exceptional projects. Each of them aimed to help and support groups of children and the youth at risk. To show thanks and respect to the people, who had dedicated their time and energy to good things, we would like to present a list of the most successful projects:

THEY ARE ALSO OUR CHILDREN Crisis intervention with parents of dying children
SO THAT CHILDREN WON'T DIE Preventing and decreasing children's accident rate
FUND FOR POOR CHILDREN Support of the education of children from socially poorer families

I AM HERE WITH YOU Increasing the quality of child's stay in hospital

CAMPAIGN “BEATING PEOPLE IS BAD... CHILDREN ARE PEOPLE, TOO!”

Impunity of physical punishment on children

LIFE ISLANDS Acquisition and purchase of so-called life islands for hospitals

CF SR's participation in projects

Thanks to support from institutions, companies, and various authorities, we were able to carry out helpful activities in our projects in 2018. We also managed to make improvements in our premises and offer interesting activities to our clients and much more. Below you can find a brief overview of financial aid and its use for the past year.

Ministry of Interior SR (€ 5,000) supported the prevention in direct work. Thanks to the provided amount we were able to provide for several prevention activities for clients.

Ministry of Labour, Social Affairs and Family (€ 7,560) provided financial aid for streetwork. Thanks to this support we were able to carry out terrain work outside our own premises.

Urban part Vrakuňa (€ 3,500 €) provided help related to living and occupation of one's own premises.

Bratislava Self-Governing Region (€ 35,200 € and € 17,000) provided the following grants for project Mixklub and project Healthy Relationships: ***“Funds to carry out measure for legal and social protection of children and social guardianship”***

Hodina deťom supported the CF SR in its project “We come together and grow further” as the continuation of the previous activity “We come together and grow”, focused on prevention and decreasing of discrimination between children and youth from different locations of Bratislava.

Nadácia pre deti Slovenska supported the CF SR through the grant program “I do sports with love and care”. Thanks to this grant, our plan is to build sport equipment in our premises on Stavbárska street.

Asbis SK provided technical equipment to support administration and direct work in projects Mixklub Healthy Relationships.

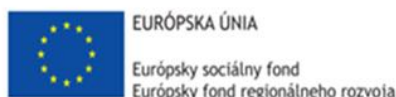

With its project “Together with you we help children”, **IKEA** provided funds to purchase furnishings for our premises in project Mixklub, and thanks to it we were able to equip the Counselling room for the parents relatives of the children from Mixklub with new furniture.

With its project “Our City”, Nadácia Pontis supported the CF SR in 2018 again, and we were able to paint the interior and exterior premises of the organisation thanks to the volunteers and the financial contribution for activities.

Operational programme Human resources – MLSAF

We carry out the demand-oriented project **Support and prevention programmes in Mixklub and Mixáčik** centres thanks to the help of the European social fund and the European fund of regional development within the operational programme Human resources.

Project **Support and Growth in Mixklub and Mixáčik** whose 4-year budgeted totalled at **EUR 280,755.05** was received aid the amount of **EUR 266,717.29**.

We are able to carry out the demand-oriented project “**Support and prevention programme for families with ADHD, ADD and behavioural disorders children**” thanks to the help of the European social fund and the European fund of regional development within the operational programme Human resources.

Project **Support and prevention programme for families with ADHD, ADD and behavioural disorders children** whose 4-year budgeted amounted at **EUR 320,978.15** received aid in the amount of **EUR 304,929.25**.

The economic activities were approved by the Revision Committee of the CF SR, and approved by the Board of the CF SR on 26 June 2019.

The financial statement was verified by auditor Ing. Andrea Zlochová, and her statement is included in the Annual Report.

**Správa nezávislého audítora pre
občianske združenie Detský fond Slovenskej republiky**

Bratislava, 26.06.2019
Audítor: Ing. Andrea Zlochová
Licencie SKAU 800

SPRÁVA NEZÁVISLÉHO AUDÍTORA

pre zriaďovateľov občianskeho združenia **Detský fond Slovenskej republiky**

Správa z auditu priloženej účtovnej závierky **občianskeho združenia Detský fond Slovenskej republiky**, ktorá obsahuje výkaz Súvaha a výkaz ziskov a strát k 31. decembru 2018 a poznámky, ktoré obsahujú súhrn účtovných zásad a účtovných metód.

Zodpovednosť orgánov n.o. za účtovnú závierku

Štatutárny orgán občianskeho združenia Detský fond Slovenskej republiky je zodpovedný za zostavenie a objektívnu prezentáciu tejto účtovnej závierky v súlade so Zákonom o účtovníctve č. 431/2002 Z.z. v znení jeho dodatkov. Táto zodpovednosť zahŕňa návrh, implementáciu a zachovávanie interných kontrol relevantných pre prípravu a objektívnu prezentáciu účtovnej závierky, ktorá neobsahuje významné nesprávnosti v dôsledku podvodu alebo chyby, ďalej výber a uplatňovanie vhodných účtovných zásad a účtovných metód, ako aj uskutočnenie účtovných odhadov primeraných za daných okolností.

Osoby poverené správou a riadením sú zodpovedné za dohľad nad procesom finančného výkazníctva občianskeho združenia Detský fond Slovenskej republiky.

Zodpovednosť audítora za audit účtovnej závierky

Mojou zodpovednosťou je vyjadriť názor na túto účtovnú závierku na základe auditu. Audit sa uskutočnil v súlade s Medzinárodnými audítorskými štandardmi.

Moja zodpovednosť podľa týchto štandardov je uvedená v odseku Zodpovednosť audítora za audit účtovnej závierky. Od občianskeho združenia Detský fond Slovenskej republiky som nezávislá podľa ustanovení zákona č. 423/2015 Z.z. o štatutárnom audite a o zmene a doplnení zákona č. 431/2002 Z.z. o účtovníctve v znení neskorších predpisov týkajúcich sa etiky, vrátane etického kódexu audítora, relevantných pre audit hodný účtovnej závierky a splnila som aj ostatné požiadavky týchto ustanovení týkajúcich sa etiky. Podľa týchto štandardov mám naplánovať a vykonať audit tak, aby som získala primerané uistenie, že účtovná závierka neobsahuje významné nesprávnosti, či už v dôsledku podvodu alebo chyby.

Primerané uistenie je uistenie vysokého stupňa, ale nie je zárukou toho, že audit vykonaný podľa Medzinárodných audítorských štandardov vždy odhalí významné nesprávnosti, ak také existujú. Nesprávnosti môžu vzniknúť v dôsledku podvodu alebo chyby a za významné sa považujú vtedy ak by sa dalo odôvodnene očakávať, že jednotlivé alebo súhrne by mohli ovplyvniť ekonomické rozhodnutia používateľov, uskutočnené na základe tejto účtovnej závierky. Počas celého auditu uplatňujem odborný úsudok a zachovávam profesionálny skepticizmus.

Okrem toho:

- Identifikujem a posudzujem riziká významnej nesprávnej účtovnej závierky, či už v dôsledku podvodu alebo chyby, navrhujem a uskutočňujem audítorské postupy reagujúce na tieto riziká a získavam audítorské dôkazy, ktoré sú dostatočne vhodné na poskytnutie základu pre môj názor. Riziko neodhalenia významnej nesprávnej účtovnej závierky v dôsledku podvodu je vyššie ako toto riziko v dôsledku chyby, pretože podvod môže zahŕňať tajnú dohodu, falšovanie, úmyselné vynechanie, nepravdivé vyhlásenie alebo obídanie internej kontroly
- Oboznamujem sa s internými kontrolami relevantnými pre audit, aby som mohla navrhnúť audítorské postupy vhodné za daných okolností, ale nie za účelom vyjadrenia názoru na efektívnosť interných kontrol n.o.
- Hodnotím vhodnosť použitých účtovných zásad a účtovných metód, primeranosť účtovných odhadov a uvedenie s nimi súvisiacich informácií, uskutočnené štatutárnym orgánom
- Robím záver o tom, či štatutárny orgán vhodne v účtovníctve používa predpoklad nepretržitého pokračovania v činnosti a na základe získaných audítorských dôkazov záver o tom, či existuje významná neistota v súvislosti s udalosťami alebo okolnosťami, ktoré by mohli spochybníť schopnosť n.o. nepretržite pokračovať v činnosti. Ak dospejem k názoru, že významná neistota existuje, som povinná upozorniť v správe audítora na súvisiace informácie uvedené v účtovnej závierke alebo ak sú tieto informácie nedostatočné, modifikovať svoj názor. Moje závery vychádzajú z audítorských dôkazov do dátumu vydania správy audítora. Budúce udalosti alebo okolnosti však môžu spôsobiť, že n.o. prestane pokračovať v nepretržitej činnosti
- Hodnotím celkovú prezentáciu, štruktúru a obsah účtovnej závierky vrátane informácií v nej uvedených, ako aj to, či účtovná závierka zachytáva uskutočnené transakcie a udalosti spôsobom, ktorý vedie k vernému zobrazeniu

Som presvedčená, že audítorské dôkazy, ktoré som získala, poskytujú dostatočné a vhodné východisko pre môj názor.

Názor

Podľa môjho názoru účtovná závierka vyjadruje objektívne vo všetkých významných súvislostiach finančnú situáciu občianskeho združenia Detský fond Slovenskej republiky k 31. decembru 2018, výsledky jej hospodárenia a peňažné toky za rok končiaci k danému dátumu v súlade so Zákonom o účtovníctve.
